

中国银行押题班-模考卷 1

第一单元 英语

一、选词填空

1. For months he suffered from the _____ that he had been admitted to a famous university.
A. vision B. idea C. imagination D. illusion
2. However, experts caution that further _____ is needed of the pesticide's safety and effectiveness before it can be released to the public.
A. scrutiny B. exams
C. management D. exploration
3. Nigeria's biggest airline, Arik Air, suspended its domestic flights on Thursday in a _____ with unions, adding to the chaos in Nigeria's aviation industry.
A. conflict B. quarrel C. dispute D. bargain
4. He believes his _____ may have spared many of these children from their parents' punishment for not being awarded a book.
A. annoyance B. interference
C. obstruction D. intervention
5. Apart from schools, hospitals and roads, whose annual budgets would be allocated in the normal way, resources would be _____ according to five government priorities.
A. distributed B. relocated
C. attributed D. contributed
6. A world in which most people enjoy prosperity and opportunity is surely better than one in which 80% are _____ in economic stagnation.
A. mired B. mingled
C. bewildered D. confounded
7. Today the latest investment boom in the USA is in full swing, but instead _____ steel and sand it involves scripts, sounds, screens and celebrities.
A. in B. on C. from D. of
8. Based on the newly launched bill, women are guaranteed least a year of paid maternity

_____.

- A. leave B. day off C. holiday D. vacation

9. The company tends to recruit and train its own staff from _____.

- A. begin B. scratch C. above D. null

10. Although all this may _____ their revenues, America's internet giants could also benefit from the legislation if it helps them in their dealing with the European Union.

- A. dent B. surge C. obstruct D. facilitate

11. Warren Truss, Australia's _____ prime minister, said at a news conference on Friday that the debris found on a remote French island this week came from the Malaysian jet that disappeared last year with 239 people aboard.

- A. behalf B. representative C. vice D. deputy

12. Peaceful coexistence and _____ and multipolarity should be some of the building blocks of the new concept of international relations which would lead to a peaceful and prosperous world.

- A. absolution B. hegemonism
C. multilateralism D. unilateralism

13. The United Nations General Assembly adopted a resolution Thursday that supporters said would start a global effort to _____ the killing and trafficking of wildlife.

- A. address B. enhance
C. strengthen D. emphasize

14. The next 15 years will be critical for climate change: if innovators, investors, the courts and corporate self-interest cannot _____ fossil fuels, then the burden must fall on the political system.

- A. curb B. manufacture C. fabricate D. excavate

15. In general, the project _____ is the person funding the project.

- A. sponsor B. promoter C. defender D. partner

16. As experts found out, premature tightening of fiscal policy could not only _____ the recovery in its cradle but worsen future deficits as well.

- A. stage B. secure C. foster D. strangle

17. Every autumn, those little yellow birds who are a thorough _____ come to my garden to peck at the seeds.

- A. disturbance B. annoyance C. nuisance D. trouble

18. Spanish researcher found that our preference for engaging in activities earlier or later in the

day shapes both out _____ and our interactions.

- A. perception B. vision C. knowledge D. intuition

19. Countries around the globe should _____ the principle of “common but differentiated responsibilities” and work together to meet the global climate challenge.

- A. linger B. persist C. uphold D. stick

20. As prices for imported staples such as barley soar and key markets like South Africa _____, companies are finding market opportunity with home grown brews in other parts of the continent.

- A. spike B. stagnate C. surge D. obstruct

21. It has won many _____ titles such as a city of parks, a city of forests and an ecological civilization city in water systems.

- A. honoured B. honorific C. honorary D. honest

22. The survival of Notre Dame through 850 years of political turbulence — through war, revolution and Nazi occupation — _____ the present to the past.

- A. binds B. makes C. finds D. changes

23. The nurses and doctor feel _____ to ensure that every patient is being well treated.

- A. necessary B. obliged C. compelled D. certain

24. Heavy penalties are _____ by the authorities for this offense.

- A. recommended B. written
C. decided D. prescribed

25. China has made _____ progress in various business and industry sectors in the 70 years since the founding of the PRC.

- A. disgusting B. commendable
C. ignoble D. despicable

26. There have been _____ demands by Taxi drivers that ride-hailing be withdrawn from the taxi market.

- A. resistant B. persistent
C. insist D. consistent

27. Business blockbusters are a reminder that dynamic markets can _____ consumers with lower prices and better quality.

- A. exploit B. receive C. achieve D. benefit

28. Future housing data will confirm or _____ whether the housing market's pain is starting to fade.

- A. validate B. refute C. disagree D. disclaim

29. The emergence of sound in the 1920s _____ Hollywood as the centre of the global film business.

- A. witnessed B. cemented C. created D. treated

30. It appears as _____ the time lost by extended lunch breaks could be avoided.

- A. that B. if C. so D. which

二、完形填空

World's First Classical Chinese Programming Language

Although programming languages vary in forms and rules, the keywords used for almost all of them are in English.

The International Data Corporation (IDC) estimates however that nearly half of the world's 22.3 million software developers come from the Asia-Pacific region. China and India alone account for about one third of the world's total developer population.

In an attempt to add some 31 to the range of available programming languages, Carnegie Mellon University computer science major Lingdong Huang has developed 'Wenyan-Lang,' a programming language based on Chinese hanzi characters and the wenyan classical Chinese grammar system.

Huang did not simply replace the English characters with Chinese hanzi, instead he applied NLP techniques to convert classical Chinese grammar to JavaScript, Python, and Ruby. He has open sourced the wenyan-lang project on GitHub, where it received a 32 11,900 stars in a week or so.

A fan of classic Chinese literature, Huang came up with the idea of programming in Chinese in order to 33 the beauty of wenyan and to inherit the historical imprint left by generations of eminent figures in Chinese history.

But most importantly, Huang believes the goal of communication is to go beyond the limits of language: "My project still has a lot of room for improvement, but my desire for communication is as strong as some of the historical figures."

Huang says programming punctuation and line breaks can be removed without affecting the output. 34 the difficulty converting between classical Chinese and other programming languages, he has provided a “cheat sheet” with tips and conversion rules.

Huang has also included a renderer that can display the program in a manner that 35 pages from ancient books and can parse the resultant SVG file back to the original program.

The Wenyan-Lan project is available on GitHub.

- | | | | |
|--------------------------|------------------|------------------|--------------------|
| 31. A. productivity | B. diversity | C. activeness | D. possibility |
| 32. A. predictable | B. massive | C. astounding | D. shrinking |
| 33. A. took into account | B. gave birth to | C. shed light on | D. concentrated on |
| 34. A. Looking at | B. Considering | C. Because | D. Due to |
| 35. A. resembles | B. stimulates | C. assembles | D. similar |

三、阅读理解

Text 1

‘It’s good to talk’, so some people say. When I commute into London, there are certainly plenty of people conversing on their mobile phones — sometimes too loudly — discussing and sharing personal details with a friend. For me, it’s strange that they talk as though the person is sitting next to them, when they don’t even acknowledge the person who is actually sitting beside them.

Many of us spend part of each day surrounded by strangers, whether on our daily commute, or sitting in a park or a café. But most of them remain just that — strangers. However, new evidence has shown that plucking up the courage to strike up a conversation might be good for our health.

Nicholas Epley from the University of Chicago and Juliana Schroeder from the University of California are behavioural scientists. They looked at this silent relationship and whether solitude is a more positive experience than interacting with strangers, or if people misunderstand the consequences of distant social connections. They found that many people feel uncomfortable and intimidated talking to others and their research suggested that when we make an initial conversation “we consistently underestimate how much a new person likes us.” It seems we carry a negative voice in our head telling us all the things that could go wrong and why someone wouldn’t want to converse with us.

Their research involved an experiment with a group of Chicago commuters and found that

“every participant in our experiment who actually tried to talk to a stranger found the person sitting next to them was happy to chat.” From this and other research, the conclusion is that connecting with strangers is surprisingly pleasant and it has a positive impact on our wellbeing. Gillian Sandstrom, a social psychologist from Essex University in the UK, said “people are in a better mood after they reach out and have a conversation, however minimal.” It’s true that talking can make you feel happier and happiness can lead to better mental health.

However, if you’re an introvert, the thought of speaking to someone new might make you anxious. But the American research found “both extroverts and introverts are happier when they are asked to behave in an extroverted manner.” So maybe, if you’re a loner, it’s time to come out of your shell and make some small talk with a stranger — it could be the beginning of a new friendship.

36. Why many of us don’t want to speak to a stranger according to the article?

- A. Many people tend to discuss and share personal details with a friend only
- B. We carry negative voice in our head telling us many people wouldn’t want to converse with us

C. We consistently overestimate how much a new person likes us

D. Many people feel comfortable and pleased to talk to others

37. In what way did introverts behave that make them happier according to the research mentioned in this article?

- A. Behave in a free manner
- B. Behave in an extroverted manner
- C. Keep the habit of doing exercise
- D. Maintain healthy lifestyle

38. What will the author suggest you do if you’re a loner?

- A. Enter into our world and make new friends
- B. Free from old rules and conventions
- C. To have good mood everyday
- D. Work hard for your wellbeing

39. Why talk to a stranger is good to our health according to this article?

- A. Many of us spend part of each day surrounded by strangers
- B. Talking to strangers can put you in a good mood and make you feel happier

C. Many people sitting next to you might happy to chat

D. So many people say 'It's good to talk'

40. Which statement below is incorrect?

A. The author thinks it's strange that people talk loudly on their mobile phone with friends but don't reach out and make small talk with the person sitting beside them

B. Connecting with strangers is surprisingly pleasant and it has a positive impact on our wellbeing

C. Commuters in Chicago involved in a social experiment found that people they sat next to were willing to talk to them

D. Solitude is a more positive experience than interacting with strangers

Text 2

After the excesses of the holiday period, **Dry January** seems like a wise idea, giving our livers, skin, and bank accounts a rest.

New research, however, suggests the benefits of cutting out alcohol may be exaggerated, and, as long as you maintain a healthy diet, the occasional drink may actually be good for you.

Researchers at the Harvard TH Chan School of Public Health studied 30 years of data on nearly 80,000 women and 40,000 men to understand how their lifestyle habits affected their lifespan. Aside from eating a balanced diet and avoiding cigarettes, they found that the healthiest people with the longest life expectancies also drank a few units of alcohol a week.

Researchers are incredibly conflicted on alcohol, particularly when it comes to overall health and life expectancy.

In 2018, a Cambridge University study found even one drink a week was enough to reduce a person's lifespan by increasing their risk of cancer or liver disease.

However, the picture is blurred by a steady stream of studies finding that the occasional drink can be beneficial, especially for the heart.

"The cardiovascular benefits of moderate alcohol consumption have been consistently observed in large cohort studies," Dr. Frank Hu, chair of Harvard's Department of Nutrition and author of the new study, said.

For the new study, published last week in the British Medical Journal, Hu wanted to see how some common lifestyle factors affect our risks of developing heart disease, diabetes, and cancer earlier in life.

His team looked at two large data sets — the Nurses' Health Study and the Health Professionals Follow-up Study — which tracked the health of 73,196 women for 34 years and 38,366 men for 28 years.

The found that women who, at age 50, ate a healthy diet, exercised 30 minutes a day, had a healthy body weight, and drank alcohol in moderation lived to an average of 84.4 years old without developing diabetes, cardiovascular diseases, or cancer. Women who did not practice those healthy habits were more likely to develop those diseases in their 70s.

It's unclear exactly why alcohol, and red wine above all, appears to be so protective, but the research is "robust," according to Hu's co-author Dr. Qi Sun, an associate professor of nutrition at Harvard.

"There is a really robust link with alcohol and high levels of HDL, the 'good' cholesterol," Sun told Insider. "We also see moderate drinking associated with lower rates of chronic inflammation."

Some research has found that red wine, for example, contains powerful antioxidants. Other research suggests red wine drinkers are simply wealthier, and therefore more likely to eat well and have time to exercise.

Despite the apparent benefits, Sun says non-drinkers should not take up liquor hoping for a boost. Alcohol consumption has been shown to increase the risk of cancer — more substantially for women than men. Last week, new US data showed a rise in binge-drinking and alcohol-related deaths among middle-aged women.

The key is to find balance, he said. "People shouldn't cherry-pick any individual component or another. If you drink alcohol, it's very important that you drink responsibly, not in excess, and that you also focus on eating a healthy diet, maintaining a healthy body weight, not smoking, and exercising. If you don't drink you don't need to start drinking."

41. Moderate drinking may have the following benefits, except _____.

- A. good for cholesterol
- B. good for liver disease
- C. protecting the heart
- D. reducing the rates of chronic inflammation

42. What does "Dry January" mean in the first paragraph?

- A. January with a healthy diet

- B. January without alcohol
- C. January without excessive spending
- D. January without rain

43. What is the author's attitude towards moderate drinking?

- A. Not mentioned
- B. Supportive
- C. Neutral
- D. Objective

44. Which of the following is the best title for this passage?

- A. Drinking Alcohol in Moderation May Be Linked to a Longer Lifespan
- B. Is Drinking Harmful to Health?
- C. What Different Scientists Think of Alcohol
- D. Moderate Drinking, Longer Life

45. Which of the followings is true according to the passage?

- A. New data shows an increase in alcohol-related deaths among older women
- B. Decades of investigations on tens of thousands of participants provide data to support research about alcohol and lifespan
- C. Hu and Sun's study clearly demonstrates why moderate drinking promotes heart health
- D. Some researchers suggest that if you never drink alcohol, it is best to start drinking less

Text 3

Food Fight: A new law decrees French supermarkets must get greedier

Given that five supermarket chains control around 80% of all organized food retailing in France, the authorities there may seem justified in probing how competitive the market really is. Too competitive, apparently: on February 1st a new law forced retailers to raise prices of food staples lest consumers be unduly profiting from shops trying to lure them with good deals.

The aim of the new "Loi Alimentation" is to ensure better pay for French farmers and for small-scale food producers, who currently earn little. Its flagship measure aims to stymie price wars by ensuring no food can be sold with less than a 10% profit margin. But the immediate impact is not to raise prices of vegetables, meat and other products sold by French farmers to supermarkets: margins on those are already far higher than the mandated floor. Rather, newspapers have been full of horror stories about the rocketing price of pastis, a boozy staple, Nutella, President camembert and Coca-Cola, which were previously sold more or less at cost to attract penny-pinching shoppers.

How consumers paying more for Coke will result in higher milk prices for France's farmers is

unclear, Proponents of the law argue that retailers making fatter margins on pits of Nutella will have more money left over to pay farmers higher prices. They fall short of mandating exactly how this might happen.

Skeptics abound. Michel-Edouard Leclerc, chief executive of Eleclerc, France's largest supermarket chain, says that the idea pennies added on to junk foods will trickle down to farmers is "a scam". Farmers complain that in spite of the new law they are still at the mercy of supermarkets whose hypercapitaliste behavior has prompted the need for legislation in the first place. Consumer groups think shoppers will be €1.4bn a year out of pocket as a result.

Supermarkets are already finding ways of circumventing the spirit of the law. Offering steep discounts on food, such as buy-one-get-one-free deals, is now banned, but retailers have simply promised to push the savings onto loyalty cards instead. Forcing the cost of Nutella and Nescafe is an opportunity for them to promote their own-brand equivalents, where margins are well into double digits already.

The agriculture ministry says the average family will pay just 50 cents per month more as a result of the law, as long as its shopping basket is not stuffed with the wrong kind of food. It understandably wants to find more ways for France's 400,000 farmers to square up to an ever-more concentrated retail sector. But trying to put more money in farmers' pockets means someone else losing out. The new law was due to come into force late last year, but was pushed back after gilet jaunes protesters drew attention to the many ways that government meddling was pushing up the cost of living.

46. What's the present situation of farmers and food producers concerned?

- A. Their income remains unchanged, still under control of large supermarkets
- B. They have profited from the law tremendously
- C. They suffer heavy losses instead
- D. They have made direct contact with consumer groups

47. What's the new law aiming at?

- A. To help retailers balance between income and expenditure
- B. To benefit consumers with lower prices
- C. To protect supermarket earnings
- D. To benefit farmers and small-scale food producers

48. What measures should supermarkets carry out according to the new law?

- A. Improve unit area yield
- B. Offering discounts and food sales
- C. Raise prices of certain foods
- D. Pay french farmers extra subsidies

49. How are supermarkets reacting to the law?

- A. They stop cooperating with multiple suppliers
- B. They are negotiating with local government
- C. They are implementing price regulations strictly
- D. They are making bypass to avoid possible losses

50. What's the status quo of the new law?

- A. It will be annulled for provoking a storm of protest
- B. It has been doing well and is overall applauded
- C. It will be negotiated and revised soon
- D. It hasn't been fully initiated yet

Text 4

75 years — that's how long it took to conduct the Harvard Grant Study that revealed the state of success and happiness depends on 2 things: love and work ethic. And if it's more or less obvious with love, the idea that children doing chores are more likely to succeed in the future is surely news.

According to Julie Lythcott-Haims, the author of *How to Raise an Adult* and the former dean of freshmen at Stanford University, chores help a person develop a certain attitude which can lead to them taking charge when there's help needed.

This quality will be useful in group projects at school, displaying teamwork with colleagues, as well as having a generally good attitude when doing work. Those who've learned to take the initiative since childhood are more likely to be leaders.

When a kid sees that his / her actions lead to a certain outcome and realizes this "act-effect" connection, it opens a door to a whole network of other activities like thinking, coping, planning, deciding, trying, failing and succeeding. It gives the kid more space to experience life in general. And doing chores gives them more control over another (very significant) area of their life.

Chores are a big part of everyday life which is impossible to avoid. And shielding your child from household duties and building a dependent pattern of behavior does more damage in the end.

More or less independent living will cause a certain dissonance and definite stress for a child who gets used to the fact that a certain part of their life is done without their participation of effort.

As Julie Lythcott-Haims mentioned, we as parents should not pull all the effort into our kids' good grades and thick resume, but rather on forming a certain set of habits, skills and mindset in general — this will help them way more in life than good grades ever will. This includes, for example, the ability to schedule a day, prioritize urgent and important tasks, and to not put things off.

Lythcott-Haims says that by asking one's kids to help with washing the dishes, taking out the garbage, and doing laundry, we help them to come to the realization: "Messses don't clean themselves." And that it's not just about "me" and "my needs" at the moment, but rather, it's seeing the whole picture.

When we intentionally isolate children from chores, we don't allow them to develop certain skills needed not only in school or at work, but in life in general, otherwise known as work ethic. Make a job chart for responsibilities like washing the dishes, watering the plants, taking out the garbage, vacuuming, and feeding animals. This experience will give your child a positive feeling of being productive.

51. As Julie Lythcott-Haims mentioned, doing chores can help kids _____.

- A. become more capable and responsible
- B. with good grades and thick resume
- C. figure out how to get a series of tasks done
- D. develop a "pitch-in" mindset

52. How to best interpret the underlined sentences in this passage?

- A. Kids need to do chores to have initial understanding of life
- B. Kids have to do the work of life in order to be part of life
- C. Kids need to do chores to learn the lesson of life
- D. Chores shifts kids focus to the whole life

53. Which of the following can be the best title for this passage?

- A. The Impact of Housework on Kids' growth
- B. The Benefits of Chores
- C. Experts: Kids Who Are Used to Doing Chores Become More Successful
- D. How to Get Your Child Involved in Housework

54. What does “dissonance” mean in the fifth paragraph?

- A. Stressful B. Discord C. Unadaptable D. Difficult

55. According to the second and the third paragraphs, those who do housework from an early age will develop the following qualities except _____.

- A. A responsible attitude
B. High self-efficacy
C. Initiative and leadership
D. Cooperation and dedication

第二单元 行政能力测试

请您准确真实填写如下信息以便我们核对考试人员身份。谢谢您的配合！

1. 您的出生年月日_____。（例：19950426）

2. 您的手机号码_____。

3. 最高学历是（ ）。

- A. 博士研究生 B. 硕士研究生
C. 大专及以下 D. 本科

逻辑推理

4. 这份决议除非是基于所有股东的大局观，否则并不意味着真正的公正。以下哪一项不符合上述论述？（ ）

- A. 要令决议体现真正的公正，所有股东需要有大局观
B. 由缺少大局观的股东做出的决议，不可能体现真正的公正
C. 由具有大局观的股东做出的决议，一定能体现真正的公正
D. 在违反大局观的情况下，股东做出的任何决议都不能真正体现出公正
5. 根据以下图形的规律，问号处应填入的是（ ）。

- A.  B.  C.  D. 

6.法律和道德是评判人类行为的两把尺子。用法律去丈量，行为要么是合法，要么是违法，用道德去丈量，行为要么是善的，要么是恶的。所有的行为都可以法律去丈量，但有的行为不具有道德属性，合法的行为都不是恶的。

如果上述命题为真，则可以推知（ ）。

- A.善的行为都是合法的
- B.合法的行为都是善的
- C.恶的行为都是非法的
- D.非法的行为都是恶的

7.小赵、小李、小孙和小黄四人获得了围棋半决赛资格。他们的语文、数学、英语和物理四个学科教师分别对结果加以预测。

语文老师说：“只要小赵不进决赛，小李就能进。”

数学老师说：“如果小孙进决赛，那么小黄一定没进决赛。”

英语老师说：“小孙和小李都没有进决赛。”

物理老师说：“小赵没进决赛，同时小李也没有进决赛。”

结果出来后发现，四个教师的预测只有一个人对，则以下正确的是（ ）。

- A.小赵和小李都进了决赛
- B.小李进了决赛，小赵没进
- C.小李和小孙都没进决赛
- D.小黄进了决赛

8.要建设科技强国，就必须满足科研人员各方面的诉求。只有普遍提升科研院所职工的工资水平，才能满足科研人员各方面的诉求。

如果上述命题为真，则可以推出以下哪项？（ ）

- (1) 建设科技强国，离不开普遍提升科研院所职工工资水平的举措
- (2) 除非满足科研人员各方面的诉求，否则建设科技强国就是空谈
- (3) 如果普遍提升了科研院所职工的工资水平，就能确保满足科研人员各方面的诉求

- A.只有（1）和（2）
- B.三项全都正确
- C.只有（1）和（3）
- D.只有（2）和（3）

9.观察数列的变化规律，然后为空缺处选出正确的数：（ ）

$\frac{4}{3}$, 2, $\frac{16}{5}$, $\frac{16}{3}$, $\frac{64}{7}$, ()

- A. 16
- B. $\frac{128}{9}$
- C. 12
- D. $\frac{85}{7}$

10. 观察数列的变化规律，然后为空缺处选出正确的数：（ ）

4, 11, 34, 81, 160, ()

A. 385

B. 279

C. 246

D. 392

11. 观察数列的变化规律，然后为空缺处选出正确的数：（ ）

65, 67, 70, 75, 82, 93, ()

A. 106

B. 125

C. 119

D. 112

12. 观察数列的变化规律，然后为空缺处选出正确的数：（ ）

48, 96, 115, 230, 4, 8, 73, ()

A. 98

B. 146

C. 102

D. 119

13. 李亮喜欢篮球，他的舍友或者喜欢乒乓球，或者喜欢足球；如果喜欢篮球，那么就不喜欢足球，由此可以推知，李亮喜欢羽毛球。

如要上述结论成立，则以下哪项假设必须成立？（ ）

A. 该宿舍喜欢乒乓球的人都喜欢羽毛球

B. 李亮所在宿舍的所有人都喜欢羽毛球

C. 篮球和羽毛球比足球更有乐趣

D. 如果对乒乓球感兴趣，则喜欢羽毛球

14. 根据规律，填入问号处的正确图形是（ ）。

15. 根据规律，填入问号处的图形是（ ）。

16. 根据以下图形的规律，问号处应填入的是（ ）。

17. 观察数列的变化规律，然后为空缺处选出正确的数：（ ）

3, 5, 14, 39, 235, ()

A. 1352

B. 1756

C. 368

D. 583

18. 根据以下图形规律，问号处应填入的是（ ）。

数字运算

19. 某商店因临近春节开展促销活动，规定消费者购物每满 99 元，在标价基础上减去 10

元。已知李大妈实际支付了 293 元，则她购买的物品标价总共是多少元？（ ）

- A. 323 B. 303 C. 287 D. 313

20. 加工一批零件，黄师傅做需要 30 天，李师傅做需要 45 天，如果两个人合作一共需要（ ）天。

- A. 25 B. 18 C. 28 D. 20

21. 五四青年节时，学校组织了一场劝募活动，共招来若干名志愿者，把志愿者分成 4 个组，除甲组之外的三个组总人数为 235 人，除丁组之外的三个组总人数为 232 人，已知甲、丁两组的总人数比乙、丙两组的总人数多 5 人，则这次劝募活动共招到（ ）名志愿者。

- A. 312 B. 314 C. 313 D. 315

22. 红黄蓝橙四个队各有若干人，不算橙队有 183 人，不算红队有 154 人，黄蓝两队总人数比红橙两队少 1 人，四个队的总人数是（ ）人。

- A. 225 B. 113 C. 112 D. 226

23. 有浓度为 6% 的盐水若干，蒸发一部分水后浓度变为了 7.5%，再加入 600 克浓度为 6% 的盐水，浓度变为了 6.6%，则最初有盐水（ ）克。

- A. 500 B. 300 C. 400 D. 600

24. 在同一光源下甲乙两人的影长分别是：甲在地面部分的影子长度是 0.5 米，墙面上的影子是 0.8 米，乙只有地面上的影子，长度是 0.85 米。已知乙的身高是 170 厘米，那么，甲的身高是（ ）厘米。

- A. 130 B. 135 C. 185 D. 180

25. 老张、老王和老黄三个人相约一起跑步健身。老张每分钟跑 60 米，老王和老黄要慢，每分钟只能跑 40 米，而且，老黄岁数最大，每隔 12 分钟就必须休息 1 分钟。此刻三人都同在起跑线上同时出发，那么半小时后，老张和老黄最多相距（ ）米。

- A. 650 B. 620 C. 680 D. 580

26. 甲参加测试，一共有四次机会，前三次的平均分是 75 分，要想平均分达到 80 分或 80 分以上，第四次测试他至少要得（ ）分。

- A. 97 B. 95 C. 96 D. 98

27. 甲乙两台机器同时开始分拣纸盒，已知甲机器每分钟比乙多分拣 20 个，且需要 25 分钟完成分拣任务，甲机器完成分拣任务后，立即与乙机器共同分拣纸盒。当任务结束时，甲机器帮乙机器分拣了 300 个纸盒。已知甲乙机器的分拣任务量是相同的，则完成任务时，甲机器分拣了多少个纸盒？（ ）

- A. 1800 B. 1500 C. 2000 D. 1200

28. 钢铁厂有甲乙丙三个车间，本季度三个车间的精钢产量之间的关系是：甲车间产量的 2 倍与丙车间产量的 3 倍之和等于乙车间产量的 4 倍，甲车间产量比乙车间的多 65 吨，乙车间产量比丙车间的多 115 吨，则甲乙丙三个车间产量的比值是（ ）。

A. 4 : 3 : 5

B. 56 : 43 : 20

C. 45 : 85 : 3

D. 3 : 4 : 7

言语理解

29. 下列语句排列最为连贯的一项是（ ）。

(1) 新规以“价格歧视”的形式将其囊括进来，是对这类言论的正面回应。

(2) 有的说“产品本来就具有弹性空间”，还有的认为“新客户是优惠券折扣后的价格”。

(3) 特别是明确规定罚款，使得消费者维护合法权益有了依据，足以对平台形成震慑。

(4) 长久以来，面对公众“杀熟欺生”的质疑，一些网络平台习惯了以各种理由搪塞敷衍。

(5) 总而言之，不承认“大数据杀熟”的存在和使用。

A. (4) (2) (1) (5) (3)

B. (4) (2) (5) (1) (3)

C. (1) (2) (4) (3) (5)

D. (1) (3) (4) (2) (5)

30. 橡皮筋拉伸会发热，缩回后温度会降低。这是因为橡皮筋中的聚合物纤维是随机取向，当其受力拉伸时，纤维就会变成一致有序的取向，这就意味着熵的减少，当放松橡皮筋时，恢复成混乱的纤维排序就意味着更高的熵，也就意味着降温。利用这个原理，研究人员将橡胶、鱼线和镍钛合金等材料经过加捻以“拧麻花”的方式实现制冷。如果该技术能够商业化，将有望替代现在使用空气压缩制冷技术，降低制冷对温室效应的影响。

从这段文字中，我们可以推知（ ）。

A. 熵增加的过程也就是释放热量的过程

B. “拧麻花”制冷方式仍处于理论构想阶段

C. 只有纤维类物质的形变才可以引起环境的温度变化

D. “拧麻花”制冷方式对电能的消耗更小

31. 5G 对物联网的要求是一平方公里有 100 万个物联网模块能连到网上，传输时延少于 10 秒，丢包率不高于 1%。5G 通过宽带低时延的连接，使得物联网可以直接连到云端，使得大数据能够和人工智能的决策分析融为一体。物联网原求只有 IOT 的模块，现在通过连接到云端，加上其他 AI 芯片的加持，能帮助人们实现实时决策。

这段话的主要意思是（ ）。

A.如今的物联网已能够支持实时决策

B. 5G 扩展了物联网的能力

C.物联网的容纳能力十分强大

D. 5G 令物联网从概念变成了现实

32.非洲猪瘟是由非洲猪瘟病毒引起的家猪、野猪的一种急性、热性、高度接触性动物传染病，发病率和死亡率高可达 100%，世界动物卫生组织将其列为法定报告动物疫病，中国也将其列为一类动物疫病。2018 年 8 月，我国出现首例非洲猪瘟疫情，随后病毒很快传播到全国大部分地区，造成巨大经济损失。中国是全世界最大的猪肉生产和消费国，面对近百年来非洲猪瘟病毒首次进入蔓延，迫切需要研发有效的疫苗和防疫手段，用于控制及预防疫情。

这段文字的主旨是（ ）。

A.鉴于非洲猪瘟的伤害极大，世界各国都将其列为重点防控的动物疫病

B.非洲猪瘟传染性大，对家猪、野猪的致死率高达 100%

C.非洲猪瘟传入我国的时间短，目前还没有造成重大伤害

D.非洲猪瘟对猪肉生产影响极大，我国迫切需要有效疫苗和防疫手段

33.填入下列横线上的词语，最恰当的一项是（ ）。

（1）世界经济变化很快，在预见未来挑战的情况下，企业家更应该抱着_____的心态，大胆决策，迎合产业发展的趋势，让企业与时代同呼吸。

（2）明明是自己国内经济结构不均衡导致贸易赤字，一些国家却总是把目光聚焦在其他国家身上，这种解决问题的思路完全是_____，最终根本不可能得到问题的答案。

A.未雨绸缪 缘木求鱼

B.如履薄冰 缘木求鱼

C.如履薄冰 舍本逐末

D.未雨绸缪 舍本逐末

34.填入下列横线上的词语，最恰当的一项是（ ）。

（1）洪峰未过，大坝岌岌可危，如何保证下游民众安全已经迫在眉睫，_____是将洪水引入废置的水库，转移下游民众。

（2）民族主义在现代国家形成过程中起到了非常重要的作用，但对它与全球化的关系，与会专家_____，莫衷一是。

A.万全之策 分道扬镳

B.当务之急 分道扬镳

C.当务之急 各执一端

D.万全之策 各执一端

35.填入下列横线上的词语，最恰当的一项是（ ）。

行走在路上，我的目光被橱窗内的摆设吸引住了。从外表看起来，这不过是一家普通的文印店，但店内摆设却是_____。店主_____用废纸加上各种颜色，彼此搭配，做成人、

树和房子等各种形状，透着轻松活泼的气氛。

A.富丽堂皇 别出心裁

B.富丽堂皇 独占鳌头

C.与众不同 别出心裁

D.与众不同 独占鳌头

36.下列语句中没有语病的一项是（ ）。

A.即使有了漏洞，想要破解操作系统也并不是这么容易，但一些专家也表示，目前破解的难度要比以往低得多

B.报名地点在行政楼一层，进了大门后直行五百米，然后右转就会看到一个写着“报名处”的指示牌

C.食品公司实施的食品加工可追溯电子注册已经生效，凭借条形码，顾客可以查到购买食品的生产日期，操作人员等信息

D.古代散文优美者甚多，经过学习，使我提高了写作水平

37.下列语句排列最为连贯的一项是（ ）。

(1) 针对校园欺凌的现象，未成年人保护法修订草案增加了许多具体措施。

(2) 遏制校园欺凌是这次修法的重点。

(3) 但是，要切实建立学生欺凌防控制度，是需要家长参与的。

(4) 最近，未成年人保护法 7 年来的首次修订工作正式开启了。

(5) 比如，规定学校应当建立学生欺凌防控制度。

(6) 没有家长参与的学生欺凌防控制度，由于缺乏外部力量监督，非常有可能变为一张纸空文。

A. (1) (5) (4) (2) (3) (6)

B. (4) (2) (1) (5) (3) (6)

C. (1) (5) (3) (6) (4) (2)

D. (4) (2) (3) (6) (1) (5)

38.下列语句中没有语病的一项是（ ）

A.尽管赛前视频只有 5 分钟，但机器人要探索的是长达数公里的隧道，这都要求机器人具备极高的物理能力

B.按照法定程序，他们投票选出了代表，掌握管理小区内问题的汇总整理以及方案撰写

C.一年来，研发工作已经打下了坚实的工作基础，获得了丰富的技术、人员储备，春节一过，就可以全马力推进计划

D.对于这种占路摆摊，侵占公共资源的行为，至今都没有引起有关政府部门的注意

思维策略

39.上午 9 点整，小明从甲地出发前往乙地。过了一会儿后，小亮从乙地出发前往甲地，

资料分析

阅读材料，回答 49～53 题。

1975 年 8 月 13 日，美国堪萨斯州佩托卡市的一群左撇子建立了一个名为“左撇子国际”的组织，他们的目标是将全世界的左撇子联合起来，共同争取左撇子的权益。于是每年的 8 月 13 日成为了国际左撇子日。

对左撇子的歧视由来已久。英语里，“左手”一词有“笨拙”、“欠老练”的意思。所以，人们就对天生惯用左手者（俗称“左撇子”）有着很深的偏见，中世纪的欧洲还一度认为左撇子是“残疾人”。但事实上，左撇子并不是一种疾病。充其量只不过他们的生理构造与大多数人有着不同，谈不上什么残疾。

人体的许多器官在分布上呈对称性而在功能上并不完全对称，比如双手、双腿、双耳、双眼、大脑的左右半球等等。一般情况下人的左右手操控能力、力量大小以及灵活程度都不一样。在日常活动中，右手占优势的人群属于右利手；左手占优势的人群属于左利手，俗称“左撇子”；两只手都灵活自如的人群属于均利手。

在历史上有许多著名的人物都是左撇子。史上最最有才华之人列奥纳多·达·芬奇就是左撇子的典型代表。法国皇帝拿破仑·波拿巴、著名科学家居里夫人、美国总统奥巴马、赫伯特·胡佛、亨利·杜鲁门、杰拉尔·福特、罗纳德·里根、老布什以及比尔·克林顿都是左撇子。作为一个小众群体，竟然涌现出如此多的杰出人物，我们不禁会想是否左撇子会比右撇子更加聪明呢？

科学研究表明，左右手的活动与大脑的左右分区有关。因此，左右手的灵活程度反映了左右大脑的发达程度。左脑管理人的右半部分肢体的活动，左脑负责语言处理、概念分析、数字运算、科学分析、逻辑推理等功能；右脑管理人的左半部分肢体的活动，右脑负责音乐、绘画、空间几何、想像、综合等功能。

右脑最重要的贡献是创造性思维。右脑不拘泥于局部的分析，而是统观全局，以大胆猜测跳跃式地前进，达到直觉的结论。左脑则更侧重于逻辑分析，强调理性的思辨，分析事物条理清晰、保守稳健。这样看起来左右脑的功能平分秋色、各有所长，它与我们经常听到“左撇子”更加聪明的传闻并不相符。

在 2010 年，澳大利亚、英国和新西兰 3 国的科学家通过大脑研究和整合生物学网络数据库获得了 895 个样本。研究发现，左利手和右利手的一般认知能力没有很大的不同，但那些不专一的右手使用者的一般认知能力比专一的左利手和右利手都要强一些。按照这个理论，也许换个手刷牙，我们就可以让自己变得更加聪明！

49. 作者认为“左右脑的功能平分秋色、各有所长”的理由是什么？（ ）
- A. 左脑的功能与右脑的功能是相辅相成的
- B. 创造性思维和逻辑分析同等重要
- C. 左右手的灵活程度反映了左右大脑的发达程度
- D. 左利手和右利手的一般认知能力没有很大的不同
50. 第六段中作者认为“现实情况”跟“传闻”不相符，其中的原因最有可能是（ ）。
- A. “左撇子的人更加聪明”是大家毫无根据的误传，不足以让人信服
- B. 通常做出杰出贡献的人其创造性思维是必不可少的，所以“左撇子”更有优势
- C. 相比于聪明的右利手，聪明的左利手在人群中更加受到关注
- D. 作者的认为左右脑的功能平分秋色，实际情况并不是这样
51. 文中提到，针对“895 个样本”的研究发现，左利手和右利手的一般认知能力没有很大的不同。判断以下哪些陈述最有可能导致实验结果缺乏说服力？（ ）
- A. 一般认知能力的某些方面的表现左利手要优于右利手
- B. 样本中左利手人数比例远高于正常人群
- C. 样本中的男性多于女性
- D. 样本的一般认知能力的整体水平远高于正常人群
52. 本文主要的观点是（ ）。
- A. 改变用手习惯可以变得更聪明
- B. 均利手比左利手或右利手聪明
- C. 左利手的人并不聪明
- D. “左利手”不比“右利手”聪明
53. 美国堪萨斯州佩托卡市的一群左撇子建立“左撇子国际”的组织，这意味着（ ）。
- A. 在世界上左利手的人数比例很少
- B. 左利手的人是弱势群体
- C. 左利手的人很团结
- D. 左利手的人更加聪明

根据资料，回答 54—58 题。

2018 年全年研究与试验发展（R&D）经费支出 19657 亿元，比上年增长 11.6%，与国内生产总值之比为 2.18%，其中基础研究经费 1118 亿元。全年国家重点研发计划共安排 1052 个项目，国家科技重大专项共安排 563 个课题，国家自然科学基金共资助 44504 个项目。截

至年底，正在运行的国家重点实验室 501 个，累计建设国家工程研究中心 132 个，国家工程实验室 217 个，国家企业技术中心 1480 家。国家科技成果转化引导基金累计设立 21 支子基金，资金总规模 313 亿元。全年共签订技术合同 41.2 万项，技术合同成交金额 17697 亿元，比上年增长 31.8%。

图 1 2014—2018 年研究与试验发展（R&D）经费支出及其增长速度

表 1 2018 年专利申请、授权和有效专利情况

指标	专利数（万件）	比上年增长（%）
专利申请数	432.3	16.9
其中：境内专利申请	412.1	17.3
其中：发明专利申请	154.2	11.6
其中：境内发明专利	138.1	11.9
专利授权数	244.7	33.3
其中：境内专利授权	231.9	36.0
其中：发明专利授权	43.2	2.9
其中：境内发明专利	34.0	6.0
年末有效专利数	838.1	17.3
其中：境内有效专利	739.9	19.3

其中：有效发明专利	236.6	13.5
其中：境内有效发明专利	160.2	18.1

全年研究生教育招生 85.8 万人，在学研究生 273.1 万人，毕业生 60.4 万人。普通本专科招生 791.0 万人，在校生 2831.0 万人，毕业生 753.3 万人。中等职业教育招生 557.0 万人，在校生 1555.2 万人，毕业生 487.3 万人。普通高中招生 792.7 万人，在校生 2375.4 万人，毕业生 779.2 万人。初中招生 1602.6 万人，在校生 4652.6 万人，毕业生 1367.8 万人。普通小学招生 1867.3 万人，在校生 10339.3 万人，毕业生 1616.5 万人。特殊教育招生 12.4 万人，在校生 66.6 万人，毕业生 8.1 万人。学前教育在园幼儿 4656.4 万人。九年义务教育巩固率为 94.2%，高中阶段毛入学率为 88.8%。

图2 2014—2018年普通本专科、中等职业教育及普通高中招生人数

54. 根据资料下列说法中正确的是（ ）。

- A. 2018年，全年境内外专利申请 412.3 万件，比上年增长 16.9%
- B. 2018年，全年境外发明专利授权数是 1.12 万件
- C. 2018年，全年境外专利申请 20.2 万件
- D. 截至 2018 年底，有效专利 838.1 万件，其中境内有效发明专利 16 万件

55. 2018 年全年普通本专科及以上学历教育招生人数大约是（ ）万人。

A. 1025 B. 953 C. 791 D. 877

56. 根据资料，下列描述中不正确的是（ ）。

A. 2014—2018 年间，研究与试验发展经费同比增加数额最大的是 2016 年

B. 2014—2018 年间，研究与试验发展经费平均每年增加约 1660.25 亿元

C. 2018 年国内生产总值约为 901697.25 亿元

D. 较去年，2018 年全年研究与试验经费增长了 2051 亿元

57. 根据资料，可知关于 2014 年—2018 年间，相关教育招生情况的描述中正确的个数是（ ）。

(1) 中等职业教育招生人数逐年上升

(2) 普通本专科招生人数逐年上升

(3) 普通高中招生人数在 800 万人上下浮动

(4) 历年来看，三种教育类型中，普通高中招生最多

A. 3 B. 1 C. 4 D. 2

58. 2018 年，基础研究经费在全年研究与试验发展经费中的所占比重约是（ ）。

A. 3.89% B. 4.21% C. 2.56% D. 5.69%

第三单元 综合知识

单选题

1. 以下企业都向某银行贷款，则属于可疑类贷款的有（ ）。

(1) 甲企业，处于停产状态，固定资产贷款项目处于缓建状态；

(2) 乙企业，进入清算程序；

(3) 丙企业法人代表涉及重大案件，丙企业的正常经营活动受到重大影响。

A. 三项都是 B. 只有 (1) 和 (3)

C. 只有 (1) 和 (2) D. 只有 (2) 和 (3)

2. 区别资本主义和社会主义之间差异的最主要标志是（ ）。

A. 生产力结构 B. 生产资料所有制

C. 生产关系 D. 收入分配

3. （ ）年 2 月，经孙中山先生批准，中国银行正式成立。

A. 1919 B. 1912 C. 1908 D. 1911

4. 李师傅生产一个甲零件需要 10 分钟，生产一个乙零件需要 20 分钟，张师傅生产一个

甲零件需要 15 分钟，生产一个乙零件需要 60 分钟，则李师傅生产一个甲零件的机会成本与张师傅生产一个甲零件的机会成本相比，情况是（ ）。

A.李师傅的机会成本是 $\frac{1}{3}$ 乙零件，张师傅的机会成本是 $\frac{2}{3}$ 乙零件，李师傅的机会成本比张师傅小

B.李师傅的机会成本是 $\frac{2}{3}$ 乙零件，张师傅的机会成本是 $\frac{1}{3}$ 乙零件，李师傅的机会成本比张师傅大

C.李师傅的机会成本是 $\frac{1}{4}$ 乙零件，张师傅的机会成本是 $\frac{1}{2}$ 乙零件，李师傅的机会成本比张师傅小

D.李师傅的机会成本是 $\frac{1}{2}$ 乙零件，张师傅的机会成本是 $\frac{1}{4}$ 乙零件，李师傅的机会成本比张师傅大

5.在不考虑其他因素的情况下，下列银行中存在利率风险最小的是（ ）。

A.丙银行，利率敏感率为 1.1

B.甲银行，利率敏感率为 0.8

C.乙银行，利率敏感率为 1.2

D.丁银行，利率敏感率为 0.7

6.继服务 2008 年北京夏季奥运会之后，2017 年中国银行成为北京（ ）年冬奥会和冬残奥会官方银行合作伙伴，成为中国唯一的“双奥银行”。

A. 2024

B. 2034

C. 2022

D. 2026

7. VMware Cloud Foundation 提供一个由计算、存储和网络虚拟化构成的原生集成的软件定义数据中心体系，其中提供应用、云计算和业务基础的是（ ）

A. VMware vSphere

B. VMware vSAN

C. VMware AirWatch

D. VMware NSX

8.郑某在 X 房地产开发商处购买一手房，并通过开发商与银行办理了房产抵押贷款业务，对此下列说法中正确的是（ ）。

（1）开发商处于中间位置，纯粹是为郑某与银行牵线搭桥

（2）郑某将房产抵押给了开发商，开发商再把房子抵押给银行贷款

（3）在未办结抵押登记之前，开发商是郑某的担保人

A.只有（3）

B.只有（1）

C.只有（1）和（3）

D.三项都正确

9.下列选项中，属于需求构成要素的是（ ）。

①消费者偏好 ②消费者有支付能力 ③商品价格 ④消费者有购买欲望

A.①②④

B.②④

C.①③

D.①②③④

10.“牛郎织女”的故事是我国民间爱情传说之一，在这个故事中，牛郎和织女在每年农历（ ）可以相见。

A.二月十四

B.四月十七

C.七月初七

D.八月十四

11.一生只画兰、竹、石，自称“四时不谢之兰，百节长青之竹，万古不败之石，千秋不变之人”的是清代文人画家（ ）。

A.郑板桥

B.高岑

C.齐白石

D.黄慎

12.1918年4月，（ ）发表《建设的文学革命论》，提出“国语的文学，文学的国语”来概括文学革命的宗旨。

A.鲁迅

B.胡适

C.周作人

D.林纾

13.未来银行金融产品和服务创新是基于（ ）的创新。

A.现金资本

B.私人银行

C.中小企业

D.大数据

14.商业银行开展个人理财顾问服务，要求对客户进行分层，其主要目的是（ ）。

A.明确不同客户的资金状况，为他们搭配最符合银行利益的理财产品

B.了解不同客户的风险承受能力，避免后续产生各种纠纷

C.为不同客户提供对应的理财产品，节约银行人力等成本

D.为不同的客户提供对应的服务，避免因错误销售损害客户利益

15.中国对企业和个人通过网络征信的官方管理机构是（ ）。

A.中国银保监会

B.互联网金融协会

C.中国银行卡联合组织

D.中国人民银行征信管理局

16.企业特有交易性金融资产期间获得的被投资公司的现金股利应当确认为（ ），并计入（ ）。

A.应收款项 公允价值变动

B.应收款项 投资收益

C.应收汇票 投资收益

D.应收汇票 公允价值变动

17.小刘的收入全部购买面包可以买100单位，全部购买牛奶可以购买50单位，若只购买这两种商品，小刘在既定收入下达到效益最大化时预算约束线与无差异曲线切点所对应的切线的斜率为（假设牛奶位于横坐标，面包位于纵坐标）（ ）。

A.1

B.0.5

C.-2

D.-3

18.地球赤道的周长为（ ）。

A. 3.9 万千米

B. 4 万千米

C. 4.2 万千米

D. 4.5 万千米

19. 下列关于超额准备金的说法中，正确的有（ ）。

A. 超额准备金是中央银行为了应对金融风险而主动留存的资金

B. 超额准备金的数额越多越好

C. 实际留有多少超额准备金，由当年储蓄总额决定

D. 超额准备金数额可以有正有负

20. B2B 商务网络中的（ ）问题导致企业的现金流无法预测，且交易过程中的信息容易丢失。

A. 汇率

B. 支付

C. 税收

D. 价格

21. 从数据库中抽取数据一般有全量抽取和增量抽取。增量抽取一般要建立触发器，其中的操作不包括（ ）

A. 插入

B. 删除

C. 校对

D. 修改

22. 下列各项物资中，不应作为企业存货核算的是（ ）。

A. 周转材料

B. 委托加工物资

C. 受托代销商品

D. 在途物资

23. 以征税对象数额的相对率划分若干级距，分别规定相应的差别税率，相对率每超过一个级距的，对超过的部分就按高一级的税率计算征税这种税率形式是（ ）。

A. 定额税率

B. 超额累进税率

C. 超率累进税率

D. 比例税率

24. 昼夜交替现象的主要成因是（ ）。

A. 地球公转

B. 地球自转

C. 地轴倾斜

D. 太阳公转

25. 如果本国居民购买外国资产的数额大于外国人购买的本国资产数额，这时候发生的事情是（ ）。

A. 贸易处于赤字状态

B. 资本净流入

C. 资本净流出

D. 贸易处于平衡状态

26. 华为昇腾系列是面向（ ）场景的处理器族。

A. AI 计算

B. 智能终端

C. 通用计算

D. 智能屏

27. 在金融工程学的实证研究中，解决了传统的计量经济学对时间序列变量的第二个假

设（方差恒定）所引的问题，该模型是（ ）。

- A. VAR 模型
- B. Trueman 模型
- C. Dow-Gorton 模型
- D. ARCH 模型

28. 小刘记账以后发现账目中存在以下三种错误，则可以使用红字更正法改正的有（ ）。

- (1) 记账凭证中应借、应贷的会计科目有误；
- (2) 记账凭证和账簿中所记金额大于应记金额，且应借、应贷的会计科目并无错误；
- (3) 记账凭证和账簿中所记金额小于应记金额，且应借、应贷的会计科目并无错误。

- A. 三种情况都可以
- B. 只有（1）和（3）
- C. 只有（2）和（3）
- D. 只有（1）和（2）

29. 当一家商业银行无法以合理成本及时获得充足资金以满足正常业务开展等情况时，我们说这家商业银行遭遇了（ ）。

- A. 操作性风险
- B. 市场风险
- C. 流动性风险
- D. 信誉风险

30. 企业未分配利润属于（ ）。

- A. 所有者权益
- B. 资本公积
- C. 盈余公积
- D. 流动资产

31. 因李某 2019 年 2 月 11 日向银行申请一笔贷款，与银行商定采用“按月还息，按计划表还本”的方式，2019 年 3 月 15 日银行放款，则李某应从哪一月开始偿还首笔贷款本金？（ ）

- A. 2019 年 9 月
- B. 2019 年 8 月
- C. 2019 年 7 月
- D. 2019 年 6 月

32. 商业承兑汇票金额 80 000 元，3 月 20 日出票，4 月 20 日到期，4 月 2 日申请贴现，月贴现率 6‰。则实付贴现金额为（ ）。

- A. 288 元
- B. 480 元
- C. 79 712 元
- D. 78 520 元

33. 以下关于边际效用递减规律的阐述正确的是（ ）。

- A. 在消费者对某种商品的消费量增加的过程中，边际效用递减规律始终适用
- B. 只有在商品消费数量较少的阶段，边际效用递减规律才适用
- C. 只有在商品消费数量较多的阶段，边际效用递减规律才适用
- D. 只有在商品消费数量在特定区间内时，边际效用递减规律才适用

34. 下列属于欧洲债券的是（ ）。

- A.在外国市场发行，以发行国货币计价的债券
- B.在欧洲市场发行，以欧元计价的债券
- C.以欧元计价的债券，其发行国是欧元区以外的国家
- D.以美元计价的债券，其发行国属于欧元区国家

35.按照规定，个人理财顾问服务中对风险提示文字“本人已经阅读上述风险提示，充分了解并清楚知晓本产品的风险，愿意承担相关风险”，银行工作人员应要求客户（ ）。

- A.清楚朗读一遍，录音留存
- B.手持文字及身份证拍照留存
- C.抄录后签名
- D.在文字上按手印或签名

多选题

36.在一百多年的发展历程中，中国银行始终秉承追求卓越的精神，将（ ）作为办行之魂，将（ ）作为立行之本，将（ ）作为强行之路，树立了卓越的品牌形象，得到了业界和客户的广泛认可和赞誉。

- A.爱国爱民
- B.诚信至上
- C.改革创新
- D.服务国民

37.中国科技界“三钱”的提法最早见于1956年，也是《十二年科学技术规划》编制过程中由总负责人，国务院总理周恩来提出的，中国科技界的“三钱”指的是（ ）。

- A.中国导弹之父钱学森
- B.中国力学之父钱伟长
- C.中国原子弹之父钱三强
- D.中国空间技术之父钱骥

38.机器人流程自动化（Robotic Process Automation）是使用软件完成（ ）工作。

- A.结构化的
- B.智能化的
- C.重复的
- D.基于规则的

39.甲在4S店购买了一辆轿车，4S店交付的车还未开走即出现发动机漏油情况。甲提出换车或者退车，4S店只同意修理发动机，双方对此发生争议。对此下列说法错误的是（ ）。
